Coordinator

SPONSORED EDUCATIONAL PROGRAMS

March 18, 1966

From: Lyle E. Mehlenbacher  
Chairman, Committee on Sections

To: Officers, Committee Chairmen and Section Officers of the  
Mathematical Association of America.

Re: 1966 Meeting of Section Officers.

One of the more important meetings of the Mathematical Association of America is the annual Meeting of Section Officers which is held during the Summer Meetings. It is through this meeting that information about the functions and activities of the Association is communicated to the membership through the officers of the Sections. The meeting also provides the opportunity for sections to report on projects which are particularly interesting and which may serve as stimuli to similar activities in other sections.

In order to insure that the meeting of Section Officers to be held during the 1966 Summer Meetings at Rutgers will meet its objectives I am asking for your suggestions and, if possible, active participation in the program of the meeting. Please let me know, at your early convenience, your reaction to one or more of the following:

- (1) Suggestions for topics to be presented at the Meeting of Section Officers;
- (2) Suggestions for Association activities which should be reported to the membership;
- (3) Suggestions for reports of section projects and section activities which would be given at this meeting;
- (4) Suggestions for the most appropriate person to make the presentation in each case (probably the person making the suggestion).

Sincerely yours,

*Lyle E. Mehlenbacher*
