

March 4, 1966

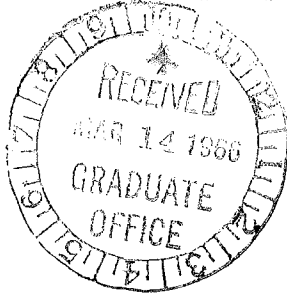

Dear Sir:

Please see to it that your faculty is informed about this:

Spring Mathematics Conference
(K-12)
Fort Dodge, Iowa

Our keynote speaker will be Mrs. John Muller, Mathematics Coordinator, Valley View School District Number 49, Overland Park, Kansas. Her topic is Mathematic Serendipities.

This is our second annual spring meeting. We feel our organization needs to grow and that meetings of this sort will be food for growth. You, as administrators, can help by encouraging your staff to attend. Please poll your staff and send in the pre-registration blank as soon as possible. (The cooks must know how many to expect for the noon lunch.)

Sincerely,

Harlan Goldsmith

Harlan Goldsmith, Vice-President
Iowa Association of Mathematics Teachers
