June 6th, 1967.

Professor B. E. Gillam
Drake University
Des Moines, Iowa   50311

Dear Professor Gillam:

Professor Canfield has supplied me with some
helpful material on the history of the Iowa Section, namely
a brief paper on the early history up to 1922 and a list of of-
ficers from 1946. However, the Iowa Section is one of the old-
est and strongest of the sections, and I would like to have more
material on its history. I hope that you and the other officers
of the section may be able to select someone who will be willing
to write a history of the period after 1922, or possibly you
could find several people who would write on portions of it. No-
thing elaborate is required, but we would like to have as much ma-
terial as possible when we finally sit down to write.

Cordially,

Kenneth O. May
Professor of Mathematics
