LYLE E. MEHLENBACHER

PROFESSOR OF MATHEMATICS
ASSOCIATE DEAN, GRADUATE SCHOOL

April 4, 1968

Professor Basil E. Gillam
Drake University
25th and University
Des Moines, Iowa 50311

Dear Professor Gillam:

It is time for us to start making plans for the Meeting of Section Officers to be held (probably) on Tuesday, August 27, 1968 at the University of Wisconsin at Madison.

As you know, this meeting serves as a means of communication from the Board of Governors and the Committees of the Association to the Section Representatives and provides an opportunity for the interchange of ideas among the Sections. The Section Representatives at the Meeting carry the information to the membership of the Association.

If your Section has received a grant during the past year through the Committee on Sections, we expect one of the members of your Section to present a report at the Meeting of Section Officers.

If your Section has conducted an interesting project during the past year we would like to hear about it.

If you are the Chairman of one of the Association Committees, this Meeting will provide you with the opportunity to inform the members of the Association of the work of your Committee.

Will you please let me know, at your earliest convenience, if you would like to participate in the program and the topic of your presentation. With your help we can make this a very vital meeting for members of the Mathematical Association of America.

Sincerely yours,

Lyle E. Mehlenbacher
Chairman, Committee on Sections
The Mathematical Association of
America, Inc.
