November 24, 1970

Professor Donald Pilgrim
Department of Mathematics
Luther College
Decorah, Iowa 52101

Dear Professor Pilgrim:

I am enclosing ten copies of the questionnaire on accreditation and certification. I think each member of the section should be given an opportunity to vote, whether he attends the meeting or not. Perhaps we should mail these questionnaires to the membership and allow them to return them by mail or to return them at the meeting following the discussion.

I propose the following schedule for our meeting this fall:

9:30 - 9:50	Business meeting
10:00 - 11:00	Bob Hogg
1:30 - 2:30	Victor Klee
2:40 - 4:00	Panel discussion on accreditation and certification

We may have to make certain adjustments depending on Professor Klee's schedule. Perhaps the officers of the section could meet with Professor Klee either before or after lunch and discuss the changes in our by-laws suggested by Professor Alder. It would seem to me that these changes should be discussed at a section meeting. This might be a good topic for a panel discussion for the spring 1972 meeting. We do not seem to have time for such an important item on this year's agenda.

Sincerely,

Tim Robertson
Associate Professor
Department of Statistics
