

## APRIL MEETING OF THE IOWA SECTION

The 60th regular meeting of the Iowa Section of the MAA was held at Grinnell College, Grinnell, Iowa, on April 27, 1973. Chairman Joseph Hoffert presided. Total attendance was 77, including 42 members of the Association.

Following the invited address, "Consequences of Continuity," by R. P. Boas, Northwestern University, and Governor Hogg's report, the business meeting was held. Reports of the Articulation Committee and the Visiting Lecturer Program were given. The following motions were passed: (1) The Iowa Section continue the Visiting Lecturer Program for another year. (2) The revised By-Laws for the Iowa Section be recommended to the Board of Governors for approval.

ACADEMIC PRESS!)

Donald Pilgrim, Luther College, Decorah, Iowa, was elected Chairman-Elect. The following contributed papers were given at the morning session:

1. *Krasnoselski's theorem on the real line*, by D. F. Bailey, Mt. Vernon.
2. *Rings whose ideals form a chain*, by E. T. Hill, Mt. Vernon.
3. *Solution of some practical potential flow problems by means of nonorthogonal expansions*, by Don Kirkham and M. S. Selim, Ames.
4. *Some applications of the alternating-direction implicit method to water infiltration problems*, by H. M. Selim and Don Kirkham, Ames.
5. *What is wrong with current mathematical education?*, by R. F. Keller, Ames.
6. *Teaching as an aid to research*, by D. E. Sanderson, Ames.

B. E. GILLAM, Secretary-Treasurer
