DEPARTMENT OF PURE AND APPLIED MATHEMATICS

July 3, 1974

Dr. D. F. Bailey, Chairman
Iowa Section
Mathematical Association of America
Cornell College
Mt. Vernon, Iowa 52314

Dear Dr. Bailey:

Attached is an announcement of a program that we have had funded. This program should be appealing to certain members of the M.A.A. in your section. We wish to enlist your aid in spreading the word about this program. It might also occur that some likely participants are known to mathematicians located in your section. We would like to hear about any likely candidates. We hope this program can have a positive influence on the future of pre-college mathematics education. We believe it to be worthy of support by the members of M.A.A. We hope you will be able to help us locate the proper participants for our program.

Sincerely,

James H. Jordan
Professor of Mathematics
Project Director

Basil: The information on the pink sheet is vague, but still, it sounds like something some of our MAA members would be interested in following up. Would you please send a copy to each of our members and bill the Section for the costs incurred? Don Pilgrim
