DEPARTMENT OF PURE AND APPLIED MATHEMATICS

July 3, 1974

Mr. R. V. Hogg  
Department of Statistics  
University of Iowa  
Iowa City, Iowa 52240

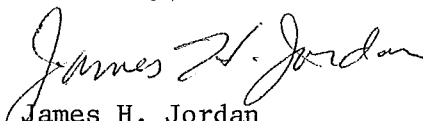

Dear Mr. Hogg:

Since you are the governor of the Iowa section of Mathematical Association of America, I would like to use you as a vehicle to inform the members of M.A.A. in your section about the attached program.

Hopefully this program will help to give mathematicians a wider range of influence on mathematics education at the pre-college level as well as widen their realm of expertise. Any new jobs that mathematicians can demonstrate that they can do helps increase the demand for their service.

I also solicit your recommendations about individuals you know who you believe would be effective after being trained in these special ways.

Sincerely,

  
James H. Jordan  
Professor of Mathematics  
Project Director
