Professor Basil Gillam
Department of Mathematics
Drake University
Des Moines, Iowa

Dear Basil:

The second semester rolls on and April 9-10 is just around the corner. Several items come to my attention.

First, I have named a nominating committee, chaired by Tim Robertson, Department of Statistics, Iowa University, to submit names for Chairperson-elect. He has requested a list of members of the Iowa section. I must admit that such a listing would have been helpful to me several times this year. I have the membership of the Iowa Academy, but almost no one belongs to the IAS, so that membership list is not helpful. May I therefore request that you send a list to Tim with a copy to me to put in the file. I know it will be helpful to Jim Cornette next year.

Secondly, Tim requested that in your next general mailing, that you invite nominations for the whole membership to be submitted to any of the members of the nominating committee.

Dr. Tim Robertson
Department of Statistics
University of Iowa
Iowa City

Professor C. Lindsey
Department of Mathematics
Coe College
Cedar Rapids

Professor Hazel Rothlisberger
Department of Mathematics
University of Dubuque
Dubuque, Iowa

Mr. Merlin Fischer
Department of Mathematics
Community College
Fort Dodge, Iowa

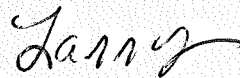

Thirdly, I have tried to include 2 year people in several things this year, but I just don't know who they are. The offices need to find who the two year members are.

Fourth, I have not looked ahead far enough to plan for the noon luncheon on (I assume - Saturday, April 10), but what I wonder if the budget would allow us to lunch out as we did several years ago. If not, I'll see what other arrangements can be made. If you let me know I'll be looking ahead.

I here requested Alex Kelineer to audit the books. I thought it would be easier to have someone from Drake. I haven't had a response yet, but assume that he will do it.

Hope all goes well with you.

As ever,

Larry

Jim Cornette

P.S. I just talked with Jim Cornette & he wants me to write a personal letter to all of the 2 year college math people & invite them to the session & to send each of them a schedule. Do you have a list of these people too? If not, do you have any suggestions on how we can formulate the list. I'll visit the schools directly if you don't have their names.
