

Dear Basil: This arrived the afternoon mail and I just had the Secretary mail you the Visiting Lecturer program. Please add Times topics to that list. Also add the Chairman of Statistics at both Ames and Iowa City to our mailing lists.

THE UNIVERSITY OF IOWA

IOWA CITY, IOWA 52242

Thanks.

DIVISION OF MATHEMATICAL SCIENCES

Department of Computer Science

Department of Mathematics

Department of Statistics

September 26, 1975

Professor L. A. Hart
Department of Mathematics
Loras College
Dubuque, Iowa 52001

Dear Larry:

Despite the fact that you forgot the Department of Statistics at Iowa in looking for visiting lecturers, I will still suggest one.

Tim Robertson

His titles are:

	Level
Step Function Regression	- fr.-soph.
Measuring the Middle	- fr.-soph.
Tests of Order Restrictions	- jr. sen.

He did not indicate any travel restrictions etc.

I do want to point out that you should have Statistics on your mailing list. Goldberg just passed the note around to the Department of Mathematics and I just saw it by accident. And if you will observe past records, the statisticians at Iowa have provided most of Iowa's lecturers (sometimes as many as 5 or 6 per year - and I know that I have made about 3 trips myself - but I'm too busy this year).

With best personal regards, I am

Sincerely yours,

Robert V. Hogg
Professor and Chairman
Department of Statistics

RVH:kh

Basil,
Please send copy of the program to all those presenting lectures. Several of them asked to be put on the mailing list - Moehne should enclose an application form for them to join the MAA.
