DEPARTMENT OF MATHEMATICS

September 29, 1975

Dr. Robert V. Bogg
Chairman of Statistics
University of Iowa
Iowa City, Iowa 52242

Dear Bob,

Many thanks for your letter dated Sept. 26, 1975. Your letter answered the question which I had in my mind. I wondered why no one in statistics at Iowa submitted a topic because, as you mentioned in your letter, the Iowa Statistics Department has DONE THEIR PART not only in the visiting lecturer program, but in the Iowa Section of the American Mathematical Association. In fact, the Iowa Statistics Department were the only representatives of ANY of the three state universities at ~~the~~ meeting over recent years. *50 AM*

Thus, on behalf of the Iowa Section, my apologies. I assumed you were on Basil's list for he sends out all correspondence. I assure you that correspondence going to Departmental Chairmen will include the Department of Statistics in the future. We no doubt, should add Statistics at Ames also (I am sure that would be okay with you).

So far we have a nice program coming up for next Spring. Dr. Pollak has already accepted the invitation to represent the Association.

Hope all goes well at Iowa, and best wishes.

As ever,

Lawrence A. Hart
Chairman, Iowa Section
