September 4, 1974

Professor D. H. Pilgram
Luther College
Decorah, Iowa 52101

Dear Professor Pilgram:

It is time to begin to make plans for the Meeting of Section Officers of the Mathematical Association of America, Inc. to be held at 7:00 p.m. on Saturday, January 25, 1975 at the Shoreham Hotel in Washington, D. C. As you probably know, the Meeting of Section Officers will be held alternately in conjunction with the Annual Meetings and the Summer Meetings. The next meeting will be held in conjunction with the Summer Meetings in 1976.

I am writing to the Chairman, Secretary-Treasurer and Governor of each Section to solicit reports of Section projects which will be of interest to other Sections. I am also writing to the Officers of the Association and to the Chairmen of several of the National Committees to provide the opportunity to transmit information to the members through the Section Officers.

The purpose of the Meeting of Section Officers is to provide a medium of exchange of ideas and information among the Sections and to inform the members of actions and activities of the national officers and committees.

Please let me know at your earliest convenience if you would like to contribute to the program of the Meeting. I need the title of your presentation and an estimate of the time you will need. Please bring with you to the Meeting an abstract of your presentation for inclusion in the Minutes of the Meeting.

Sincerely yours,

Dr. Lyle E. Mehlenbacher, Chairman
Committee on Sections
