

The MATHEMATICAL ASSOCIATION of AMERICA

1529 Eighteenth Street, N.W. ■ Washington, D.C. 20036 ■ Telephone (202) 387-5200

February 1987

Dear MAA Secretary:

As you may be aware, the MAA Executive and Finance Committees voted to authorize sections to award free memberships as prizes for student papers presented at section meetings. This prize can be awarded to any student who presents a paper. The recipients of these memberships are allowed to select any one journal and, in case the prize winner is already a member, an MAA-published book could be substituted for the membership.

Four section nominee forms are enclosed for your convenience in obtaining the information necessary to initiate the membership process. Please note that the member may receive either the AMERICAN MATHEMATICAL MONTHLY or the MATHEMATICS MAGAZINE or the COLLEGE MATHEMATICS JOURNAL.

It would be appreciated if you would use these forms when you send in the nominee information.

Also enclosed are two sets of cheshire style labels in alphabetical order of your section's membership. These alphabetical lists are sent each year to all section secretaries for their use in updating membership information.

Sincerely,

Alicia D. Bennett
Assistant to Dr. Willcox
