DEPARTMENT OF MATHEMATICS  
AND COMPUTER SCIENCE

Professor George Trytten, Chair  
Department of Mathematics  
Luther College  
Decorah, IA 52101

Dear Professor Trytten:

Enclosed is a copy of a letter sent to Kevin Dennis recognizing his presentation at the recent Iowa Mathematics Meetings and a certificate for presentation to him which has been signed by Elgin Johnston and myself.

I have also sent to Kevin a form for him to indicate the usual biographical information which the MAA wants for their records. Kevin will receive a one-year student membership in the MAA for his presentation and may chose to receive any one of the three Association journals (*Mathematics Magazine*, *College Mathematics Journal*, *American Mathematical Monthly*). I have suggested that he talk to somebody in your department if he needs help in deciding which journal to select.

Thank you for your support of the Association and its annual meeting shown by the presence of both your faculty and your students. Congratulations to Kevin and to those of you who were supportive of his efforts. (And apologies to Professors Laursen and Schlicker for our equipment failure).

Sincerely,

A handwritten signature in cursive script, appearing to read "David O. Oakland".

David O. Oakland, Secretary-Treasurer  
Iowa Section  
Mathematical Association of America
