Central College  
Pella, Iowa 50219

Dear Don:

I assume you received a copy of the letter from the office of the President asking our executive committee to nominate a public information representative for this section prior to the Winter meetings. If you haven't, let me know and I will send you a copy.

Another topic which the executive committee ought to consider prior to presentation to the general membership is the storage and preservation of our records. The Iowa State University Library is well equipped and willing to sort, preserve, and store our old papers. They already do this for the Iowa Academy of Science and other organizations. Of course we may well want to consider other libraries also. Both Jim Cornette and I have boxes of old dusty papers which deserve better care than we can give them.

Sincerely,

A handwritten signature in cursive script that reads "Jim Peake".

Jim Peake
