

August 15, 1961

Lloyd J. Montzingo, Jr., Associate Secretary  
Mathematical Association of America  
University of Buffalo  
Buffalo 14, New York

Dear Professor Montzingo:

Since Professor Canfield is out of the office for the month of August, he had asked me to proofread the enclosed galley proof which I have done with the help of the mathematics department here at Drake.

I believe the following corrections should be made:

In the second paragraph under number 5, there are two errors as indicated by the pencilled circles. The large O should be a small o, and the M should be an N.

Under number 7, the word encircled should be capitalized.

Under number 10, I believe there should be a period or dash between C U P M and Panel.

With these corrections, I believe the report is satisfactory.

Very truly yours,

M. Ruth Meyer (Mrs.)  
Steno-Clerk  
Graduate Division.
