

Cornell College

MOUNT VERNON, IOWA

Department of Mathematics

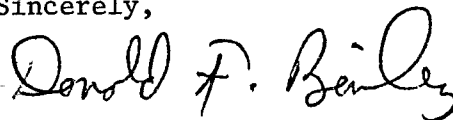

Dear Colleague:

Last Spring you were sent a letter asking that you contact members of your department about the Visiting Lecturer Program of the Iowa Section of MAA. Unfortunately I must ask once again if you will encourage members of your department to serve as visiting lecturers for the 1973-74 school year. (Forms on which titles and other data are to be given are enclosed.) I hope that the fact that only five replies were received from the spring mailing can be attributed to the fact that no return address was placed on the letters through my oversight.

In order that we have information booklets made up and in your hands at a reasonable date I must request that those persons who are willing to be visiting lecturers this year return one of the enclosed forms by September 20 at the very latest!

Thank you for your efforts in this regard; I am aware that this is a hectic time of year.

Sincerely,

Donald F. Bailey
Chairman, Iowa Section MAA

P.S.: Special thanks to the five who replied in the spring!
Unless you wish to change the information you mailed me then, you need not reply a second time.
