

Professor Lara Pudwell is the Dixon and Herta Benz Professor of Mathematics and Statistics at Valparaiso University. She won the MAA's Henry L. Alder award for early career teaching in 2014 and the Trevor Evans award for expository writing in 2023. She is a coauthor of *A Mathematician's Practical Guide to Mentoring Undergraduate Research* (MAA Press, 2019) and a past chair of the Indiana Section. Since 2021 she has served as the Executive Director of MathPath, a national residential summer camp for middle schoolers who love mathematics. Her primary mathematical interests are in enumerative combinatorics, especially permutation patterns.
