

# Communications Director Report

## OK-AR MAA 2022

- In April of 2021, I was elected to become the communications director, replacing Michael Lloyd, who had held the position for fifteen years.
- In August of 2021, Michael Lloyd and I met to discuss the responsibilities of the communication director and to discuss important information that is posted on the website that needs to be preserved as we move to transition to the new MAA template.
- In August of 2021, I contacted MAA to gain access to the website and begin working on transitioning the website to the new template.
- In January of 2022, I gained access to the website. To prevent disrupting sectional announcements. Presented papers from the 2021 conference were uploaded at this time.
- By March 14, we had received seven contributions from member institutions, and the newsletter was posted to the sectional website.

- Over the summer of 2022, I plan to transition the sectional website to the new MAA template. The goal is to maintain an archive of the current site for future access.

I want to thank the executive committee members for helping me keep track of my responsibilities as I learn about this position.

Respectfully submitted,

Christopher Sauer

Communications Director
