

The Oklahoma-Arkansas Section NExT is inviting applications for 2024-2025 Fellows. Project NExT is a program of the Mathematical Association of America to help new mathematics faculty adjust to their responsibilities as full-time faculty members. The Oklahoma-Arkansas Section NExT is a local version of this national program.

The 2024 program will take place on Thursday, April 4 and Friday, April 5 at the University of Arkansas in Fayetteville, Arkansas, as part of the spring meeting of the Section. The program will include various topics of interest to new faculty members from our Section. In particular, we will have sessions addressing teaching, research and/or service responsibilities. Fellows will participate in the 2024 and 2025 Section NExT meetings and are responsible for registering for the Section meeting. For the 2024 meeting, first and second year Fellows will be reimbursed for lodging on Thursday night and will be provided dinner on Thursday, April 4, as well as lunch on Friday, April 5. The third-year Fellows are responsible for their lodging and meeting registration but will be provided the meals mentioned above. The Section will also provide the Faculty Workshop entrance fee for all Fellows provided that it is a part of the scheduled Section NExT program.

Fellows must be full-time faculty in their first four years of teaching at the college/university level or a graduate student completing a Ph.D. by June 2024. Interested applicants should send a letter describing their teaching, research, service interests, and how they hope their participation in Section NExT will help them meet their career goals. Also, applicants should submit a letter from their supervisor, department head, or dean expressing support and a commitment to provide funds (if available) for the Fellow's participation in both the 2024 and 2025 Section meetings.

Completed applications should be sent by March 8, 2024, to:
