Superintendent
United States Air Force Academy
Colorado 80401

Dear Sir;

On April 28, 1984, the Rocky Mountain Section of the Mathematical Association of America met in Fairchild Hall on the invitation of your Mathematics Department. Our attendance was approximately one hundred college and university professors from Colorado, Wyoming and South Dakota. We had an excellent meeting and were very much impressed by the facilities and organization provided by the Mathematics Department and the Academy. We deeply appreciate the privilege of having our meeting at your institution.

Sir, I take the liberty of bringing several individuals to your attention for special recognition. Major George Hughes, our Program Chairman, did a superb job of preparing our professional program and insuring the local arrangements. This was one of the finest meetings we have had in five to ten years and the responsibility for that belongs to Major Hughes.

Captain Greg Keethler was responsible for finance and registration and he insured that his part of the arrangements were performed smoothly and efficiently.

Also, Major M. Crowley and Captain John Petro were very helpful with general arrangements and audiovisual services.

Indeed, all of these officers performed their responsibilities so well that they made it look easy. The fact it looked so easy is the strongest statement that I can make to impress upon you just how well they carried out their duties.

Again, the Section is grateful that we were able to meet at the Academy. We will long remember our visit and we look forward to our next opportunity to come again.

Respectfully,

Dr. David Ballew
Secretary/Treasurer
RMS/MAA
