Dr. Rebekka Struik  
Mathematics Department  
Campus Box 426  
University of Colorado  
Boulder, CO 80309

Dear Rebekka:

Casper College has got a problem with the March meeting: Apparently there is going to be a mass convention of Future Farmers of America in town on March 29, 30 and there will be a real problem with hotel rooms.

March 15, 16 is a much better time, and if we will move, the Hilton will give us a free wine and cheese party.

There are three obvious problems: 1. contacting national MAA  
2. scheduling Lida Barrett and 3. weather.

1. National MAA has been advertising March 29, 30 as the meeting date. I can get them to change that (easy to do) and we can certainly inform our membership through the Newsletter. This doesn't seem to be a real problem.

2. Casper College has contacted Dr. Barrett, and she feels that March 15, 16 fits her schedule better than the previous dates. She can and will come.

3. Casper is more likely to have snow in April than in March. Even if we do have a problem, there is a chance to reschedule.

This obviously should be a top priority item for our telephone conference call on November 19. To be honest, it doesn't seem to cause any real hardships.

Sincerely,

Dr. David Ballew, Head  
Department of Mathematical  
Sciences
