

UNIVERSITY OF COLORADO, BOULDER

Department of Mathematics

TO: David Ballew and Allan Skillman
FROM: Rebekka Struik
DATE: September 17, 1984
SUBJECT: Lida Barrett

Enclosed is a copy of a letter from Dr. Barrett accepting my invitation to be the national speaker at the Casper meeting in March.

My preference is for the talk on women mathematicians on Friday night and the talk on topology in material science for Saturday morning. However, you two, and anyone else you think ought to be consulted, should also be involved in this decision. A copy of the letter I am sending to her is enclosed. I do not know what "national meeting in Boulder" she means (at the end of her letter).

Let me know your preferences on the talks. What else should I be doing about the Casper meeting? Are there any formalities about notifying the national MAA or arranging the payment of the national for her expenses with which I am supposed to be involved?

Sincerely,

Rebekka Struik

Dear Dave: Could you please write Eileen Poiani and explain the misunderstandings that led to your inviting her.

Thanks,

Also, who else should be consulted about which talks Lida Barrett should give?

Rebekka
