member of the Committee on
Sections - Ballew*

November 27, 1985

Professor David Ballew, Chair
MAA Committee on Sections
Department of Mathematics
South Dakota School of Mines and Technology
Rapid City, South Dakota 57701

Dear David:

Don Small wrote to me recently with a suggestion which I quote here in full:

I believe that Sections could be strengthened and communications improved if Governors were explicitly requested to report and conduct discussions at their Sectional meetings on MAA studies (for example: the report on the Calculus Articulation Panel, report of Teacher Training Recommendations). Maybe each Section could provide its Governor with a program slot for reporting on and discussing issues of concern to the National MAA.

Perhaps this might be added to the agenda of the Committee on Sections for discussion and action.

Hope to see you in New Orleans.

Sincerely,

Lynn Arthur Steen
President
