To: All MAA Secretaries

Dear Colleagues:

Several times in the recent past, MAA governors have expressed a desire to learn about newly elected members in their sections. I am happy to inform you that we have now taught our computer to print monthly lists of new MAA members in each of our sections. We will be sending these lists to you regularly from this time on.

I enclose the current new member list for your section. You will note that the lists do not contain complete addresses for new members. Instead they contain the name and location of each members' employer. It is possible for us to obtain mailing labels for these new members, but that entails a bit of effort. Before we invest time and money in writing programs to print mailing labels for these lists on a semi-automatic basis, I will wait to hear from some of you as to whether you really wish to communicate with these new members.

If there is sufficient demand, then we will make the necessary computer changes so that we can regularly send you mailing labels for new members.

Sincerely,

Alfred B. Wilcox  
Executive Director
