December 19, 1986

Dear colleague,

As Newsletter editor for a regional section of the MAA, you may find the following information of interest to your membership and wish to include it as an announcement in your next newsletter. I hope that the information reaches you in time to announce it.

There will be an exhibition "A Mathematician Views Escher," March 10-April 11, 1987 at the Payne Gallery of Moravian College, Bethlehem, PA. More than fifty original Escher works will be included in the exhibition and there will be a catalog and poster in conjunction with the exhibition. Doris Schattschneider, chairman of the Mathematics Department at Moravian College, is co-curator of the exhibit. For further information on the exhibit or any special events to take place during the exhibit, contact Doris Schattschneider, Department of Mathematics, Moravian College, Bethlehem, PA 18018 (telephone: 215-861-1373).

Sincerely yours,

A handwritten signature in cursive script that reads "Doris Schattschneider".

Doris Schattschneider
Professor & Chairman
Department of Mathematics
