Mr. William D. Emmerson
Mathematical Association
of America
1006 11th St., Box 38
Denver, CO 80204

Dear Mr. Emmerson,

Thank you for your interest in Denver and the JOHN Q. HAMMONS TRADE CENTER. Enclosed please find a brochure for our new facility. In addition, we look forward to working with the Mathematical Association of America. Together, the Holiday Inn Denver I-70 East Hotel & Convention Center and the John Q. Hammons Trade Center will offer you the best of everything for a successful convention or trade show in one convenient location.

We are located on I-70 East at the Chambers Road exit, only 10 minutes east of Stapleton International Airport. In addition, we provide complimentary service to and from the airport 24 hours a day. To the downtown area we are only a short 15-20 minute drive. Also, we have free parking for more than 1,000 vehicles.

The hotel complex has two restaurants and two lounges. A gift shop and a full service unisex salon are also on site. In addition, our indoor pool/sauna and whirlpool can offer complete relaxation and enjoyment after a busy day. Exercise equipment is available for those who wish to continue their exercise routine on the road.

The Trade Center will be connected to the hotel complex for easy access from the guest rooms, restaurants and other hotel amenities, therefore eliminating any weather concerns during your event. Combined square footage between the hotel complex and the Trade Center is 66,000 square feet.

I would like to contact you after you have had the opportunity to review the enclosed material. Should you have any questions or concerns prior to my contacting you please feel free to call.

Best regards,

William Tolentino
Trade Center Sales Manager
