Joint Policy Board for Mathematics

Re: Mathematics Awareness Week, 1989

For your information in planning events for the spring, we are announcing the dates and theme of the 1989 Mathematics Awareness Week, as follows:

Dates: April 23-29, 1989

Theme: Mathematics: Discovering Patterns

You will receive more information on Mathematics Awareness Week ideas and activities early in 1989. We look forward to working with you to make this week a vehicle for sharing mathematical ideas with the general public and with special interest groups in your section.
