April 6, 1993

Dear Ms. Baxter —

In preparation for the 1993 meeting of the Rocky Mountain section, I reviewed the books that we had displayed at the 1992 meeting and which I still had in my office. Those which continued to be on the 1993 price list were displayed at the 1993 meeting, along with the new ones you sent to me. Our sale this year was very disappointing to me. Only \$85. We are holding our annual meeting in 1994 in Rapid City, South Dakota, which is about 850 miles from here and 400 miles from Denver. I expect a low turn-out for that meeting. It is so far, I will fly and that is expensive. For all of these reasons, I do not think we should be having a book sale there. Hence, I am shipping back all of the books on hand.

First, there are four books which you sent this year but which were duplicate copies of books sent previously. These have a "sticky note" on them saying "DUP COPY":

Halmos's *Problems for Mathematicians*, Dolciani 12,
Perspectives on Contemporary Statistics MAA Notes 21
Student Research Projects in Calculus Spectrum
Fixed Points by Yu A. Shashkin, Mathematical World Vol 2

Second, the books you were selling for other publishers.

The Mathematical Tourist
More Mathematical People
The Man Who Knew Infinity
Islands of Truth
Andrew Weil, The Apprenticeship of A Mathematician
Mathematics, The New Golden Age
Journey Through Genius

You mention on your letter to me, two other books in this genre.

Fractal Music, Hypercards and More (which we sold at the 1992 meeting and for which we remitted the money at the time of my annual report)
A History of Mathematics (I cannot find a record of this book. But, I do know that I had it at the start of the 1992 meeting, so we owe \$24.95 for it (that was the price on the 1992 list) unless you can find some record of what happened to it.)

At the meeting we sold our copy of CAM-23 *Complex Analysis*, which you listed as being out of stock, but which we had a copy of here. That is listed in the sales part of this report.

The other books returned are

Dol-10 *More Mathematical Morsels*
Dol-11 *New and Unsolved Problems*
Dol-12 *Problems in Calculus*
Dol-13 *Excursions in Calculus*
CALC-1 and CALC-2 *A Century of Calculus I and II*

file copy

MSW *Mathematical Scientists at Work*
 CFC *Call for Change*
 WIW *Women into Mathematics*
 LRU *Four Year Library List*
 TYR *Two Year Library List*
 MBHS *Math Books Recommendations for High Schools and Public Libraries*
 NISTI *Mathematicians Learning to Use Computers (Turing Computers)*
 NTE-16 *Using Writing to Teach Mathematics*
 NTE-17 *Priming the Calculus Pump*
 NTE-18 *Models for Undergrad Research*
 NTE-19 *Visualization*
 NTE-20 *Laboratory Approach to Teaching Calculus*
 NTE-21 *Perspectives on Contemporary Statistics*
 NTE-22 *Heeding the Call for Change*
 NTE-23 *CBMS Survey*
 NTE-24 *Symbolic Computation*
 NTE-25 *Concept of Function*
 NTE-27, 28, 29, 30,31 *Calculus Resource Collection*
 NMTW *Numerical Methods that usually Work* (you listed out of stock, but I had one)
 TLP *The Last Problem*
 POLY *Polyminoes*
 JOG *Journey into Geometries*
 SRPC *Student Research Papers*
 ZTI *Zero to Infinity*
 CIIRUS *Mathematical Circus*
 LURE *Lure of the Integers*
 FIX *Fixed Points*
 MAXIM *Stories About Maxima and Minima*

I am returning these to your office by UPS.

Sales

to William Horton	
CAM-23 <i>Complex Analysis</i>	Check for \$16 enclosed for copy taken at meeting
to David Larue	
NTE-16	
CRANKS	
CIRCUS	Check for \$39 enclosed
to Burnett Meyer	
CRANKS	Check for \$14 enclosed
to Charlotte Root	
NFT-21	Visa for \$16, noted on order form
CRANKS sold at meeting	Check from Rocky Mtn section for \$14 enclosed
TOTAL	\$99

Sincerely,

William C. Ramaley,
 Secretary/Treasurer
 Rocky Mountain Section
