

# The MATHEMATICAL ASSOCIATION of AMERICA

1529 Eighteenth Street, N.W.

Washington, D.C. 20036

Telephone (202) 387-5200

Winter 1993

Dear Section Secretary:

We are pleased that you will be holding a Section booksale at your forthcoming section meeting.

Our section booksales work as follows:

1. We send you a selection of our most recent books for display at your meeting. Members ordering MAA publications at Section Meetings are entitled to a 20% discount below the member price. We will send you a supply of price lists that reflect the discounted prices.
2. You collect orders on the special section book order forms we provide. Your members pay by check, or by credit card (Visa or MasterCard).
3. When your meeting is over, collect all of the checks and order forms and send them to our office for processing. We will send out the orders just as soon as we can.

In addition to the books for display, the order forms, and price lists, we will send you special fliers that describe our most recent books. You may sell the display copies if you wish, but if you do, please be sure to let us know so that we do not duplicate the order. However, you may elect to keep the display copies for your next meeting.

Please note that the following books are no longer available:

The Mathematical Tourist - sent back

More Mathematical People - sent back

The Man Who Knew Infinity - sent back

A History of Mathematics

Islands of Truth - sent back

Andre Weil The Apprenticeship of A Mathematician - sent back,

Mathematics The New Golden Age - sent back

Fractal Music, Hypercards and More

Journey Through Genius - sent back

*I cannot find a record of this. But we had it. So we owe for it. we did not remit for it.*

*sold at 1992 meeting & remitted with charge at the time.*

If you have any questions I have not answered in this letter, please let me know. I will be happy to help in any way I can.

Sincerely,

*Kathleen H. Knust*  
Kathleen H. Knust  
MAA Publications

*I took both these along to Golden.*

\* PLEASE note that these two books ARE OUT OF STOCK now, AND ARE BEING REPRINTED!

{ - numerical methods THAT WORK (nmtw)  
- complex ANALYSIS (CAM-23)
