WHO

This list contains the names and specialties of people in Colorado who are acknowledged by their colleagues as experts in areas related to the teaching and learning of mathematics for all levels. Some people listed here are willing to make presentations on their subjects, while others are available for consultation only.

INTENDED USERS

- *K - 12 school mathematics faculty
- *college/university mathematics faculty
- *media people who want access to an expert on some topic
- *community organizations who are interested in mathematics education

HOW

This information can be accessed by calling the RMTEC office at MSCD for a printed version or on-line via the MAST hotline.

EVALUATION

There will be a feedback system. After some one speaks they will hand out a feedback form that is to be mailed to Resource List headquarters. Members of the Resource List will get copies of all feedback information. Feedback will be used to ensure the integrity and credibility of the list . (Details of this part are not worked out.)

Notes

Nomination/Application forms would be distributed those who receive the newsletters of their respective organizations.

More work needs to be done on the exact method of nomination and evaluation and upkeep of the list.

Distribute to CCTM people at Fall Convention meeting (in their packet).

MAST is willing to be used. However MAST would like each organization to pay a small fee for the upkeep of their system.
