## MEMORANDUM

TO: MAA Section Officers  
FROM: Jane Heckler *JH*  
Senior Assistant of Programs  
DATE: January 24, 1995  
SUBJ: EXXON Support for Student Programs in 1995-96

Another grant from the EXXON Education Foundation enables the MAA Committee on Student Chapters to make ten awards, up to \$1,000 each to Sections in order that they might

- implement programs to attract minority students to participate in Section activities;
- implement programs for students that illustrate applications of the use of technology in mathematics, and
- conduct career fairs or otherwise bring to the attention of students that a wide variety of careers are open to those with a sound background in mathematics.

Applications for support should include a description of the project, budget, identification of the intended audience and plans for attracting that audience. Support for speakers should be consistent with Section policy.

Sample proposals are available upon request.

Should your Section receive a grant, a report and budget expenditures must be submitted by September 1996. Sections that are considering applying for an additional EXXON grant, should have the report of the previous grant submitted to Aparna Higgins.

Applications should be sent by June 1, 1995 to:

Professor Aparna Higgins  
Department of Mathematics  
University of Dayton  
Dayton, OH 45469-2316  
eMail: HIGGINS@udavxb.oca.udayton.edu

Sections that receive an EXXON grant are encouraged, but not required, to share the results of their program at a Special Session on Student Chapters held at the winter meetings.

Announcement of support will be made by August 1, 1995.
