"A Liberal Arts Education that Works"

Math Department
Fort Lewis College
Durango, Colorado 81301

Nov. 6, 1996

Dear MAA Departmental Liaison

First. Let me welcome you into the network of Departmental Liaisons. Attached is a list of all the liaisons for the section. I hope that many of you can get together, by mail (e- or otherwise) or at our annual section meeting, which is jointly hosted this year in Denver by the University of Colorado at Denver and Metropolitan State College of Denver. It is April 11-12, 1997.

Second. The Rocky Mountain Section of the Mathematical Association of America is soliciting nominations for a Distinguished Teaching Award for one of our members. I know you are aware of those members of your department deserving of such an honor. In fact, I suppose there are many such faculty on your campus. Recognizing only one such person a year in the entire Rocky Mountain section is somewhat symbolic. However, such recognition does emphasize outstanding teaching. Enclosed is a form for nomination. If you need more than one form, please Xerox whatever you need. Please note that the nominee must be a member of the MAA. Furthermore, if you do not want to do all the work of nominating a candidate, you may simply forward the name to me and I will contact the chair of the individual's department.

Sincerely,

William C. Ramaley,
Secretary/Treasurer
Rocky Mountain Section
Math. Assoc. of America
